

Outcomes: improve employment rates for consumers of mental health

Intermediate goals and SWEAB mission

Enhance the skills, knowledge, abilities of clinical, vocational, administrative and volunteers staff

Inventory existing employment related trainings, including -
organizational design and change
interpersonal skills
benefits counseling
services specific to employment counseling (job coaching, job retention)
skills in managing change

identify categories of staff requiring training, including training at different points in time (orientation, ongoing supervision, formal college and university setting) -case manager CAC employment specialist physician Executive Director volunteers

Identify gaps in training

Develop training elements suitable for inventory of skill set and inventory of staff (establish various formalities including consultants, videotapes, DVDs, distance learning) and identify strategies to secure delivery

Define the role of NYS OMH in promoting these trainings -
- financial incentives, certification as an incentive etc.
